ANDREU JL *see also* Diez E; Mulero J

ANDREW L *see* Brown MA

ANDRUP O *see* Glennás A

ANDUJAR C *see* Stevens RJ

Angiotensin converting enzyme and Von Willebrand factor antigen levels in Takayasu arteritis 924

Ankylosing spondylitis
active, circadian hypothalamic-pituitary-adrenal axis responses in patients (A1) 126
antibodies against bacterial lipopolysaccharides in Japanese patients 491
atlantoaxial subluxation in a patient with cervical spine ossification (L) 293
bone metabolism in patients (A1) 127
chest expansion in (A1) 130
development of a severity index (A1) 128
differences at polymorphic sites the TNF locus (A1) 80
differences in lymphocyte typing for the antigen HLA-B27 resulting from the particular technique used (A1) 125, (L) 1326
the drawbacks of having and being a parent: 'every moment and every touch hurt' (A1) 220
evaluation of radiological index of spinal disease—10 year follow up study (A1) 128
evaluation of two exercise programmes on various anthropometric/physiological and health related variables (A1) 129
familial, polymorphism of human NRAMP in a cohort (A1) 78
fatigue: an overlooked symptom. Circadian variation of fatigue compared to pain and stiffness (A2) 18
genome wide screen in (A1) 120
for a given radiological involvement who suffers more?—men or women? (A2) 19
HLA-DR2 B5*0101 antigen presence in patients (HLA-B27 + and -) and a group of healthy individuals (HLA-B27+) (A1) 126
idiopathic, lung findings on high-resolution computed tomography—correlation with clinical findings, pulmonary function testing and plain radiography 677

IL-1 β and IL-1RA gene polymorphisms in the genetic susceptibility to (A1) 124

and normals, FASTRAK in, validating a new method of measuring cervical spine movement (A2) 24

outcome: a study of 100 patients 766

patient education in: a knowledge questionnaire (A1) 123

patient insight, compliance and symptomatology assessment in (A1) 131

physical therapy for maintenance of functional capacity. Study of 206 patients (A1) 130

primary: is it important to sleep flat? (A1) 129

radiological changes in classical: comparison with the spondylitis of psoriasis, ulcerative colitis, regional enteritis and reactive arthritis (A1) 134

and reactive arthritis, different distribution of T and NK cell subpopulations in peripheral blood (A1) 127

and rheumatoid arthritis, IgM, IgG and IgA class enterobacterial antibodies in serum and synovial fluid 1051

rheumatoid arthritis and fibromyalgia, complementary therapies in: prevalence, perceived efficacy and cost (A2) 19

and seconder status (A1) 125

and seconder status: a re-evaluation 778

Annexin I binding to human monocytes, proteolytic enzyme effects—an evaluation by flow cytometry and confocal microscopy (A1) 95

Anterior cruciate ligament (ACL) deficient knee, joint position sense (JPS) in (A1) 59

Anti-Jo-1 antibody-positive polymyositis, effective treatment with cyclosporin (L) 144

Anti oxidized low-density lipoprotein (ox-LDL) antibody anti beta-2-glycoprotein I (β 2GPI) antibody in systemic lupus erythematosus (A1) 8

Anti- β -2-glycoprotein-I antibodies
and anti oxidized low-density lipoprotein (ox-LDL) antibody in patients with systemic lupus erythematosus (SLE) (A1) 8

and anti-cardiolipin antibodies are not associated with antiphospholipid syndrome (APS) in mixed connective tissue disease (A1) 17

and β 2-glycoprotein: where are we now? 1247

do patients have them before the thrombotic/neurological events in systemic lupus erythematosus and antiphospholipid syndrome? Analysis of sequential samples from patients with clinical events during the follow-up (A1) 18

ELISA for diagnosis of the antiphospholipid syndrome (A1) 20

testing in patients with antiphospholipid syndrome (L) 1235

a useful marker for the antiphospholipid syndrome 113

Anti-C1q antibody production in peripheral blood association with proliferative nephritis in systemic lupus erythematosus 32

Anti-CD4 monoclonal antibody
humanised non-depleting
clinical effect in rheumatoid arthritis (RA) (A1) 122

immunological and pharmacodynamic effects in rheumatoid arthritis (RA) (A1) 185

intra-articular injection of the knee with in rheumatoid arthritis: an arthroscopic and magnetic resonance study of efficacy and safety (A1) 188

Anti-CD36 antibodies, microangiopathic haemolytic anaemia, systemic lupus erythematosus and thrombocytopenia 794

Anti-centromere antibodies
clinical features and outcome of patients with (A1) 28

six cases positive for with ulcer and gangrene in the extremities 889

Anti-cytokine and anti-T cell therapy combination for rheumatoid arthritis. A pilot study (A1) 106

Anti-endothelial cell antibodies as disease activity marker and therapeutic guide in MCTD (A1) 108

Anti-MPO in adult-and childhood-onset SLE (L) 1343

Anti-myeloperoxidase antibodies
in minocycline-induced lupus syndrome (A1) 5

relationship between the development of blindness in Churg-Strauss syndrome 273

Anti-nucleolar antibodies, sulphasalazine effect on in rheumatoid arthritis (A1) 179

Anti-oxidant therapy reduces lipoprotein oxidation and improves symptoms in primary and secondary Raynaud's phenomenon (A1) 37

Anti-rheumatic drug-prescribing behaviour of Australasian rheumatologists 1984-1994 487

Anti-rheumatic drugs
disease-modifying, decrease in interleukin 6 during the first 12 months is a prognostic marker for clinical outcome during 36 months treatment 1298

slow acting, rheumatoid arthritis should be treated early with (A1) 104

Anti-RNP antibody in a child with undifferentiated carcinoma and no evidence of mixed connective tissue disease 289

Anti-Ro/SSA antibodies, clinical characteristics of patients with that recognize conformational determinants present only on the native 60 KD Ro/SS-A protein (A1) 23

Anti-T cell and anti-cytokine therapy combination for rheumatoid arthritis. A pilot study (A1) 106

Anti-tumour necrosis factor therapy ameliorates joint disease in a chronic model of inflammatory arthritis (L) 1129

Anti-tumour necrosis factor- α
Adhesion molecule expression inhibition and IL-1 β production reduction after treatment in CIA (A1) 87

(cA2) therapy, reduction of serum matrix metalloproteinase 1 and matrix metalloproteinase 3 in rheumatoid arthritis patients 643

Antibiotic prophylaxis for prevention of bacterial arthritis (BA) in joint disease patients: a cost-effectiveness analysis (A1) 197

Antibiotics and elemental diet in rheumatoid arthritis (A1) 187

Antibodies to proteinase-3 mediate expression of intercellular adhesion molecule-1 (ICAM-1,CD 54) 839

Anticardiolipin antibodies
and anti- β 2-glycoprotein-I antibodies are not associated with antiphospholipid syndrome (APS) in mixed connective tissue disease (A1) 17

protein C and beta-2-glycoprotein I (β 2GPI), interaction between (A1) 16

in systemic sclerosis (A1) 31

Antimalarial drugs in the treatment of rheumatological diseases 799

Antinuclear antibodies and drug toxicity evaluation in patients with rheumatoid arthritis (RA) treated with sulphasalazine (SASP) and auranofin (AUR) over 5 years: a prospective study (A1) 178

Antiperinuclear factor in early synovitis 710

Antiphospholipid antibodies
and avascular necrosis in patients with SLE (A1) 19

fibrinolysis, thrombin generation and endothelial cell damage in patients with (A1) 15

Antiphospholipid syndrome
 anti- β -2-glycoprotein I antibodies: a useful marker 113
 anti- β -2-glycoprotein I antibody testing (L) 1235
 anti- β -2-glycoprotein I ELISA for diagnosis (A1) 20
 autoantibodies against oxidized low-density lipoprotein 964
 lack of crossreaction between antibodies to β -2-glycoprotein I (β 2-GPI) and to oxidised low density lipoprotein (LDL) (A1) 16
 and polyarteritis nodosa 1210
 prevalence and clinical significance of antithrombin antibodies (A1) 17
 primary, tissue factor expression on monocytes from patients with: its relationship with thrombotic events (A1) 15
 primary and secondary to systemic lupus erythematosus, HLA Class II antigens in (A1) 4
 secondary: differences between primary Sjögren's syndrome and systemic lupus erythematosus (A1) 19
 sera from patients recognise a cryptic epitope on beta-2-glycoprotein I (A1) 20
 symptomatic, induced by chlorpromazine (A2) 37
 and systemic lupus erythematosus, do patients have anti- β 2 glycoprotein-I antibodies before the thrombotic/neurological events? Analysis of sequential samples from patients with clinical events during the follow-up (A1) 18
 up-regulation of tissue factor (TF) (A1) 18

Antiprothrombin antibodies, clinical significance in systemic lupus erythematosus (SLE) (A1) 9

Antithrombin antibodies, prevalence and clinical significance in antiphospholipid syndrome (APS) (A1) 17

Anxiety, pain intensity and depression and regional cerebral blood flow, quantified by Tc-99m HMPAO single photon emission tomography in fibromyalgia (A1) 206

Apoptosis
 in peripheral lymphocytes in systemic lupus erythematosus: a review 158
 phototherapy treatment enhances CD95 (FAS) expression in circulating lymphocytes of patients with systemic sclerosis 1276
 should the clinician have interest in the deregulation of in autoimmunity? (E) 1244

APPELBOOM T *see* Steinfeld S

AQEEL NM. Kikuchi's lymphadenitis developing in a patient with mixed connective tissue disease and Hashimoto's thyroiditis (L) 1236

ARMSTRONG S *see* Chaudhuri K

Arteritis, suspected cranial, value of temporal artery biopsy (L) 709

Arthritis
 adjuvant-induced, thioredoxin augments stress protein antibody responses in Lewis rats (A1) 87
 associations between the intention to seek work, currently active in seeking work and illness acceptance in young adults (A1) 220
 bacterial
 antibiotic prophylaxis for prevention in joint disease patients: a cost-effectiveness analysis (A1) 197
 outcome, a prospective community-based study (A1) 194
 collagen, cartilage oligomeric matrix protein and bone sialoprotein, increased serum levels in rats 1258
 collagen-induced
 clinical suppression by continuous treatment with IL-4 (A1) 86
 IL-1 β production reduction and inhibition of adhesion molecule expression after anti-TNF α treatment (A1) 87
 corticosteroid use and abuse by medical practitioners for arthritis and related disorders in Pakistan 91
 diagnostic concordance between general practitioners and participants enrolled on a self management programme (A1) 219
 early, factors predicting long-term outcome (A1) 154
 early inflammatory, collagenase, cathepsin B and cathepsin L messenger RNA expression detection in synovial tissues of patients (A2) 32
 early onset, diagnosis and course: results of a special early arthritis clinic (A1) 121

hip, clinical outcomes—a double-blind randomised controlled trial to compare the effect of intra-articular local anaesthetic and local anaesthetic plus steroid (A2) 21

infectious in the elderly: 10 years experience in a general hospital (A1) 196

inflammatory
 anti-tumour necrosis factor therapy ameliorates joint disease in a chronic model (L) 1129
 early mild, prognostic markers determining persistence of disease in patients post treatment with depomedrone (A1) 154
 effects of detraining subsequent to strength training on neuromuscular function 1075
 and psoriasis, DIPJ and nail involvement in 150 patients (A1) 132
 knee, retrospective review of yttrium-90 synovectomy in the treatment 1100

mycoplasmal in patients with primary immunoglobulin deficiency: clinical features and outcome in 18 patients 661

mycoplasmas in the synovial fluid (A1) 198

non-erosive, IL-10 mRNA elevated levels in synovial membrane compared to erosive rheumatoid arthritis (RA) (A1) 81

painful shoulder, sonography and MRI in the evaluation of 996 perceived equality in the labour market and career-related optimism of young people in Scandinavia (A1) 218

primary inflammatory and synovial fluid analysis (A2) 11

prospective evaluation in polymyalgia rheumatica (A1) 34

protracted or familial Mediterranean fever 1228

reactive
 and ankylosing spondylitis, different distribution of T and NK cell subpopulations in peripheral blood (A1) 127
 β -haemolytic *Streptococcus* and *Staphylococcus aureus* (L) 606, (L) 607
 in bacterial infection (A2) 42
 Chlamydia-specific cytotoxic T cell responses (A1) 135
 is undifferentiated seronegative spondylarthropathy a forme fruste of? 1001
 knee synovitis is strongly associated with the presence of knee enthesopathy (A1) 171
 in a patient with simultaneous parvovirus B19 infection and *Clostridium difficile* diarrhoea (L) 143
 pattern in Gulf Middle East patients (A1) 132
 with a severe lesion of the cervical spine 126
 Yersinia-triggered experimental: effect of a 3-week course of ciprofloxacin 541

septic
 by *Aspergillus fumigatus*: a complication of corticosteroid infiltration (L) 610
 community acquired bacteraemia data use to validate protocols for the early treatment (A1) 194
 in the elderly. Differential features and prognosis (A1) 196
 Haemophilus influenzae and HIV disease (L) 1027
 HIV infection as a risk factor 333
 and osteomyelitis, *Mycobacterium marinum* infection causing 1207 persistence of *Staphylococcus aureus* as detected by polymerase chain reaction in the synovial fluid 203
 microbial. An overview in a general hospital (A1) 195
 risk factors and differential characteristics in rheumatoid patients (A1) 197

of shoulder and spinal cord compression due to *Brucella* disc infection 377

and spondylodiscitis caused by *Mycobacterium xenopi* in a patient with systemic lupus erythematosus (L) 1025

use of the general 16S-rRNA gene PCR to detect bacterial DNA in synovial fluid and synovial tissue from patients with (A1) 113

Arthrocentesis and synovial fluid volume, needle bore size used for have no effect on cartilage proteoglycan measurements (L) 299

Arthrography
 or magnetic resonance imaging of the shoulder: which do patients prefer (A1) 53
 value in steroid injection of the shoulder joint (L) 709

Arthropathy, hemophilic, iron deposits and catabolic properties of synovial tissue (A1) 47

Arthroplasty for the rheumatoid elbow (A2) 7

Arthroscopic determination of sub-clinical knee synovitis in early RA (A1) 89

Arthroscopy, needle
 patient safety and tolerability of (A1) 170
 small joint for inflammatory synovitis is a safe, well tolerated procedure for obtaining synovial tissue samples (A1) 170

Audit

- activity among UK rheumatologists—results of a questionnaire survey (A2) 30
- is routine synovial fluid analysis (SFA) necessary? Lessons from an audit (A1) 200
- of magnetic resonance imaging of the lumbar spine (A1) 211
- of management of gout in primary care: lessons & recommendations (A1) 213
- of ophthalmological screening for chronic asymptomatic uveitis (CAU) in juvenile chronic arthritis (JCA) (A2) 17
- on the outcome of neuralgic amyotrophy in a district general hospital (A2) 43
- of patient compliance with shared care monitoring of slow acting anti-rheumatic agents (SAARDs) (A1) 223
- of a patient education programme using the patient knowledge questionnaire: lessons for the educators and for the question setters? (A1) 222
- of post-fracture management in a rehabilitation ward (A1) 214
- prospective of shared care in rheumatology in Havering health district—views from all sectors (A1) 213
- of pulsed intravenous methylprednisolone in rheumatology in-patients (A1) 184
- of referral patterns to a new rheumatology service (A1) 211
- of a rheumatologic arthroscopy unit in a university hospital (A1) 171
- rheumatology day unit: audit of the first six months (A1) 212
- routine synovial fluid culture: is it necessary? 1116

Auditing the management of incidentally diagnosed osteoporosis—another missed opportunity? (A1) 70

Auranofin

- is safe and superior to placebo in elderly-onset rheumatoid arthritis 870
- sodium aurothiomalate, hydroxychloroquine and penicillamine, five-year randomised controlled trial in the treatment of rheumatoid arthritis (A1) 105
- and sulphasalazine, antinuclear antibodies and drug toxicity evaluation in patients with rheumatoid arthritis treated over 5 years: a prospective study (A1) 178

Autoantibodies

- against cardiolipin and endothelial cells in Takayasu's arteritis: prevalence and isotype distribution (L) 923
- against oxidized low-density lipoprotein in antiphospholipid syndrome 964
- prevalence in Caucasian patients with primary and secondary Sjögren's syndrome (A1) 23, (A1) 27
- profiles, long-term follow-up in black female lupus patients and clinical comparison with Caucasian and Asian patients 229
- and vascular injury in connective tissue diseases. Characterization of two murine monoclonal antibodies directed against myeloperoxidase (A1) 41

Autoimmune diseases

- bone marrow transplantation in treatment (E) 1
- cryptic T-cell epitopes and their role in the pathogenesis 1144
- Autonomy, should the clinician have interest in the deregulation of apoptosis? (E) 1244

Autonomic dysfunction in systemic sclerosis: time and frequency domain 24 hour heart rate variability analysis 669

Autosomal dominant periodic fever in two Irish pedigrees (A1) 142

Avascular necrosis and antiphospholipid antibodies in patients with SLE (A1) 19
